## **OFFICIAL STATEMENT**

***'DIRECTIVE 2002/96/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL  
of 23 January 2003  
on waste electrical and electronic equipment (WEEE) - Joint declaration of the European  
Parliament, the Council and the Commission relating to Article 9'***

The WEEE directive is intended to prevent waste consisting of electrical and electronic equipment from being introduced to the municipal/household waste stream, and places the responsibility for disposal, and or recycling, of WEEE on its producer.

Zotefoams plc does not manufacture electronics equipment and as such is outside the scope of the WEEE regulations.

The WEEE directive also defines 10 product categories for differentiating electrical and electronic equipment covered by it and the RoHS directive. Zotefoams meets its responsibilities under the RoHS Directive.

I trust that the above statement is sufficient, however if any further information or clarification is required then please do not hesitate to contact the Technical Support group at the address above.

Yours sincerely

**Dr. Neil Witten**  
**Director of Technology and Development**
